Taping Machines

March 2025

PGL 701W

Standard Side Belt Semi Auto Tape Applicator

Manual adjustment of height and width of cartons – better suited for standard size cartons or low volume, small to medium runs.

- Free Servicing and Parts for the entire lease period*
- *Provided Pomona machine tapes are exclusively used on the machine
- Regular maintenance will include regular 6 monthly site visits, general cleaning and maintenance and fitting of replacement parts. Urgent calls outs included if a normal wear and tear issue.
- Health and Safety Compliance – machines are all CE Compliant and on site training will be provided with user sign off of user competence.

PGL 703

As 701W but Top and Bottom drive belts only

Ideal for lighter quality cartons with heavier products. The weight of the product allows the top and bottom belts to drive the carton through evenly.

The most economical machine.

- Free Servicing and Parts for the entire lease period*
- *Provided Pomona machine tapes are exclusively used on the machine
- Regular maintenance will include regular 6 monthly site visits, general cleaning and maintenance and fitting of replacement parts. Urgent calls outs included if a normal wear and tear issue.
- Health and Safety Compliance – machines are all CE Compliant and on site training will be provided with user sign off of user competence.

PGL 702

As 701W but with Top and Side belt drive

This machine is designed for cartons that are empty at the top and of medium weight – for example wine, liquid and beer cartons. Manual adjustment of height and width of cartons.

- Free Servicing and Parts for the entire lease period*
- *Provided Pomona machine tapes are exclusively used on the machine
- Regular maintenance will include regular 6 monthly site visits, general cleaning and maintenance and fitting of replacement parts. Urgent calls outs included if a normal wear and tear issue.
- Health and Safety Compliance – machines are all CE Compliant and on site training will be provided with user sign off of user competence.

PGL 701

TSN4 as 701W but special design for small cartons, especially counter ready display/dispenser cartons

Minimum Size of cartons 60mm wide and 50mm high.

- Free Servicing and Parts for the entire lease period*
- *Provided Pomona machine tapes are exclusively used on the machine
- Regular maintenance will include regular 6 monthly site visits, general cleaning and maintenance and fitting of replacement parts. Urgent calls outs included if a normal wear and tear issue.
- Health and Safety Compliance – machines are all CE Compliant and on site training will be provided with user sign off of user competence.

PGL 702A

Automatic Height Adjustment tape machine for Random Cartons

Ideally suited for packing lines with multiple carton dimensions being packed on the same line. 12 cartons can be handled per minute, cartons need to be manually presented to the machine.

- Free Servicing and Parts for the entire lease period*
- *Provided Pomona machine tapes are exclusively used on the machine
- Regular maintenance will include regular 6 monthly site visits, general cleaning and maintenance and fitting of replacement parts. Urgent calls outs included if a normal wear and tear issue.
- Health and Safety Compliance – machines are all CE Compliant and on site training will be provided with user sign off of user competence.

Machine comes with full safety guarding and wired to CE standards.

PGL 705

Semi Auto Manual adjustment Carton Flap Closure and taping machine for uniform size cartons

Speeds up processing by removing the manual labour required to close the flaps of the carton. 12 cartons per minute.

- Free Servicing and Parts for the entire lease period*
- *Provided Pomona machine tapes are exclusively used on the machine
- Regular maintenance will include regular 6 monthly site visits, general cleaning and maintenance and fitting of replacement parts. Urgent calls outs included if a normal wear and tear issue.
- Health and Safety Compliance – machines are all CE Compliant and on site training will be provided with user sign off of user competence.

Machine comes with full safety guarding and wired to CE standards.
